FULLY-SUPPORTED TRAINING SERIES FOR BP MS 150

Organized training rides start in January 2019, includes a 14-week Saturday cycling series with routes throughout the greater Houston area. Weekly rides include fully supported short and long routes and hills. Ideal to prepare for the BP MS150 or other cycling events. All Participating Teams/Riders provide volunteers to support the weekly rides.

Enrolled (registered) riders pay a one-time fee for the entire series and receive weekly communications, detailed maps, fully stocked rest stops, port-a-lets, SAG support, bike mechanics, and law enforcement and ride marshal support.

Ready2Roll Cycling riders get in great shape, ride safer, have better cycling etiquette, become strong cycling ambassadors, and meet fun people with the same interest in cycling.

Whether you ride fast or are just getting started, this well organized training program, and the support, organization and encouragement provided, makes your ride experience outstanding!

2019 Enrollment Opens October 15, 2018
